# ACOUSTIC & MECHANICAL METAMATERIALS

Imperial College London | London | July 9th-11th 2018

This workshop, co-organised with the support of The UK Acoustics Network; [acoustics.ac.uk](http://acoustics.ac.uk) and the GdR META-FRANCE, aims at gathering European partners, academic or industrial, to discuss and exchange views on acoustic and mechanical metamaterials. The event will set the first building block of a European Acoustic & Mechanical Metamaterial Community. The workshop will be structured around plenary talks given by prominent academics in the field, as well as contributed talks and posters covering a spectrum as wide as possible and addressing different themes such as:

- **Underwater Acoustics**
- **Micro-acoustics**
- **Airborne Acoustics**
- **Mechanical Metamaterials and Vibroacoustics**
- **Seismic**

For more information of how to register or submit an abstract for a talk or poster visit:
